EXPERIENCE

Developer Relations · NovitaAI - Own developer ecosystem GTM across BD, outreach, partnerships, co-marketing, and developer programs - moving opportunities from first contact to integration, launch, and qualified pipeline. - Run ecosystem initiatives across vLLM, SGLang, Nous Research, Hugging Face, OpenClaw, and leading open-source communities through workshops, hackathons, livestreams, and technical outreach. - Improve developer experience across CLI workflows, docs, onboarding, demos, and feedback loops; built automation supporting 100+ merged PRs and 10+ commercial leads. - Create technical content, product videos, and launch campaigns; grew X from 2K to 5K and Discord from 3K to 5K, generating 1000K reach and ~\$500K in BD resources.	Jan 2026 - Present
Core Developer & Developer Relations · Apus Network - Built AI inference services with WASI-NN, llama.cpp, vLLM, and sglang; deployed confidential workloads on NVIDIA GPU TEE. - Maintained Lua on-chain protocol logic and supported technical talks, X Spaces, and live-coding workshops.	Feb 2025 - Dec 2025
Software Engineer · Samsung Electronics - Developed C#/.NET TV applications, improving runtime performance, CPU use, and memory efficiency. - Collaborated with Baidu on an AI chat application using cloud deployment and RAG.	Jul 2023 - Feb 2025

SELECTED PROJECTS

Nous Research (Hermes Agent) Full-cycle / 1000K reach Owned outreach, provider positioning, launch coordination, co-marketing, and BD follow-up.	OpenClaw Community Workshops Foundation relationship / Joint programs Established ties with the OpenClaw Foundation and co-hosted community workshops, connecting developer education with ecosystem trust and BD opportunities.
AI Inference Service Secure inference OpenAI-compatible sglang service with deterministic inference, GPU TEE, and on-chain metering.	awesome-hermes-tutorial Open-source education Practical tutorials for provider setup, messaging integration, and reusable agent templates.

CORE SKILLS

BD & Partnerships / Developer Programs / Developer Experience / Technical Content / Python / Rust / C++ / vLLM / SGLang / GPU TEE

EDUCATION & LANGUAGES

Hanyang University - Software Engineering, 2019-2023; full scholarship, GPA 3.4

工作经历

开发者关系 · NovitaAI

2026.01 - 至今

- 负责开发者生态 GTM，覆盖 BD、outreach、合作伙伴、联合营销与开发者项目，推动机会从首次接触走向集成、发布和有效商业管线。
- 围绕 vLLM、SGLang、Nous Research、Hugging Face、OpenClaw 及头部开源社区开展技术外联、workshop、黑客松与直播。
- 优化 CLI、文档、开发者 onboarding、Demo 与反馈闭环；搭建自动化流程，促成 100+ PR 合并及 10+ 商业线索。
- 制作技术内容、产品视频与发布活动；推动 X 从 2K 增长至 5K、Discord 从 3K 增长至 5K，获得 100 万曝光及约 50 万美元 BD 资源。

核心开发者与开发者关系 · Apus Network

2025.02 - 2025.12

- 使用 WASI-NN、llama.cpp、vLLM 和 sglang 构建推理服务，并在 NVIDIA GPU TEE 部署机密计算负载。
- 维护 Lua 链上协议逻辑，并参与技术演讲、X Space 与现场编程活动。

软件工程师 · Samsung Electronics

2023.07 - 2025.02

- 开发 C#/NET 电视端应用，优化运行性能、CPU 占用和内存效率。
- 与百度协作开发 AI 对话应用，涉及云端部署与 RAG 集成。

代表项目

Nous Research (Hermes Agent) 全链路合作 / 100 万曝光 负责 outreach、供应商定位、发布协调、联合营销与 BD 跟进。	OpenClaw 社区联合 Workshop 基金会联系 / 联合活动 与 OpenClaw 基金会建立合作关系，联合社区策划并举办 workshop，将开发者教育转化为生态信任与 BD 机会。
AI 推理服务 安全推理 基于 sglang 构建 OpenAI 兼容服务，支持确定性推理、GPU TEE 与链上计量。	awesome-hermes-tutorial 开源开发者教育 提供模型供应商配置、消息渠道接入和智能体模板实战教程。
